

Brad Lakritz

San Anselmo, CA

I am writing to provide comments to the FCC on the E-Rate NPRM, proceeding 13-184. E-Rate has been very important to San Domenico School because it has helped our students and teachers gain access to a wealth of online resources, communicate and collaborate, and develop the 21st century skills necessary for college and career.

E-Rate funding levels are never enough to cover San Domenico School's bandwidth needs.

I urge you to raise the E-Rate funding level to at least \$5 billion per year. With more money available schools like ours can continue to meet the growing demand for high bandwidth Internet access.

I know that seamlessly infusing digital learning throughout the curriculum is a prerequisite for students to graduate from high school. We want our students to leave San Domenico School with the skills and knowledge they need to succeed in today's global reality.

Access to high-speed broadband is the key to allowing modern teaching and learning to occur in all schools in California and across the country.
